How to create Item Modifiers
In four easy steps

Fast, reliable, and packed with tools to make every transaction effortless. **SwipeSimple Register**

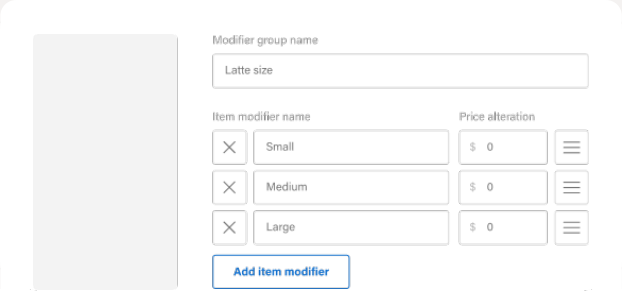

Step 1
Create Modifier Group

Modifier Groups are a way to bundle modifications that may apply to several items. To setup a new Modifier Group:

(A) Login to your SwipeSimple account using your computer.
(B) Select Item Catalog then choose Modifier Groups.
(C) Then select Add New Modifier Group.

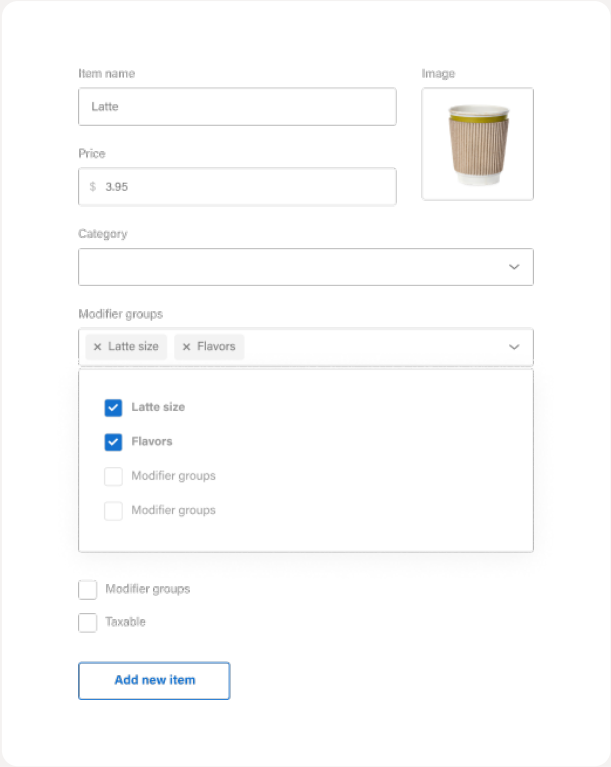

Step 2
Create Modifier

(A) Specify the types of modifiers you want to make for the group you created.
(B) On this screen, you can specify modifier details such as size, flavor, price – as well as minimum and maximum modifiers allowed per item.

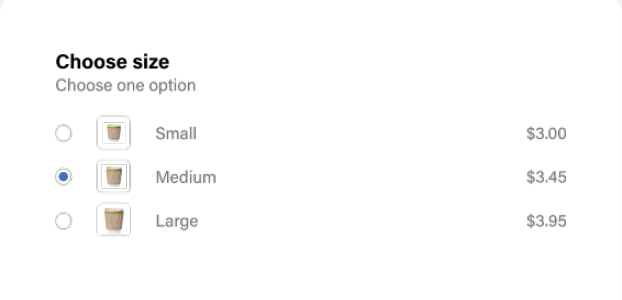

Step 3
Add Items to the Modifier

(A) Choose the Items for which the Item Modifiers should apply.
(B) Click Item Catalog in the side menu.
(C) From here, you can create a new item and choose the Modifier you just made or add to an existing item.

Step 4
Build a sale

Now you're ready to use your new Item Modifier. Once created, you will have the option to **choose a modifier every time you build a new sale**.
