SwipeSimple

Tap to Pay on iPhone.

Accept contactless payments right on iPhone.

With Tap to Pay on iPhone and the SwipeSimple app, you can accept all types of contactless payments — from physical debit and credit cards to Apple Pay and other digital wallets.*

No additional hardware required.

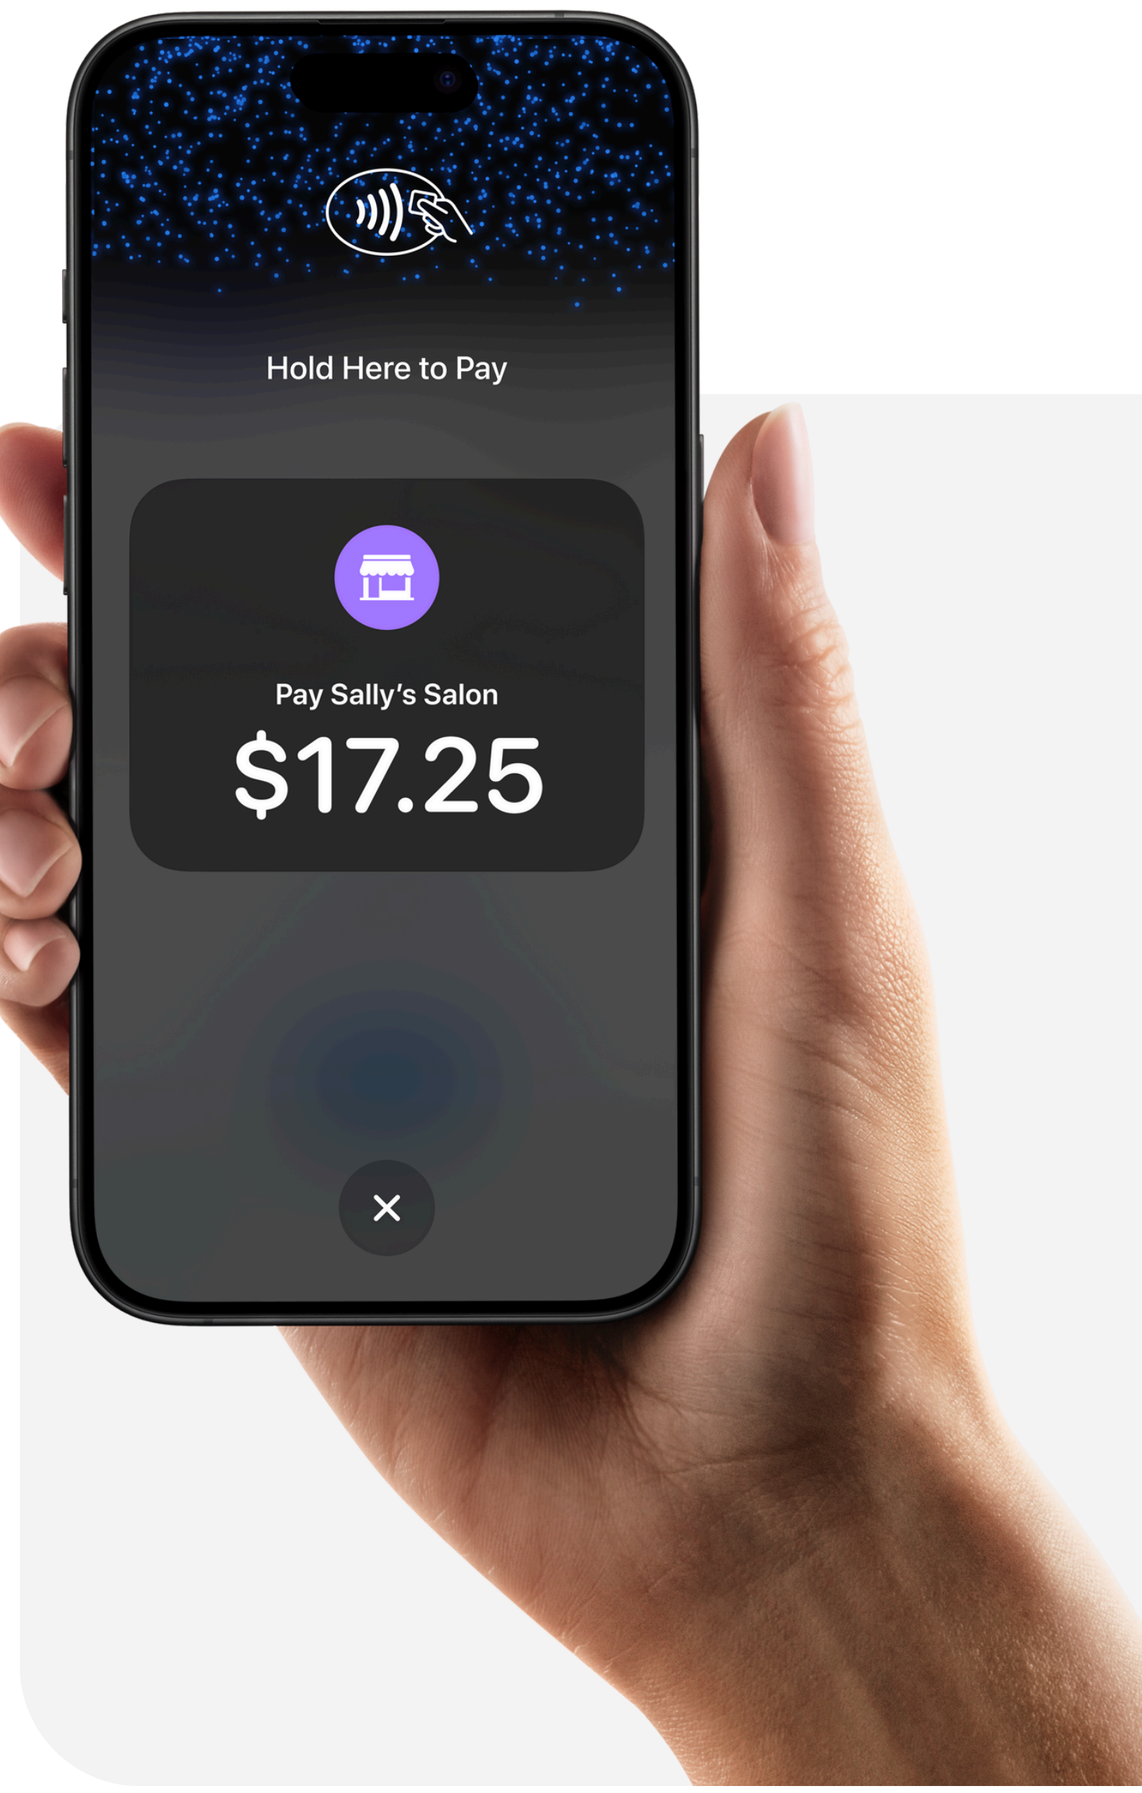

With Tap to Pay on iPhone, you can accept in-person, contactless payments right on your iPhone. So there’s no need for additional card readers and terminals. All you need is your iPhone and the SwipeSimple app.

Designed to be secure.

Tap to Pay on iPhone uses the built-in security and privacy features of iPhone to help protect your business and customer data. Apple doesn’t store card numbers on Apple servers, so merchants and customers can rest assured that their data stays theirs.*

Accepting payments with **Tap to Pay on iPhone** takes just a few simple steps:

1. Open the SwipeSimple app on your iPhone, and enter the purchase amount or select a specific option within the app.
2. Present your iPhone to the customer.
3. When paying by card, your customer holds their credit or debit card horizontally at the top of your iPhone, over the contactless symbol.
4. When paying with Apple Pay or other digital wallets, your customer holds their device over the top of your iPhone, near the contactless symbol.
5. When you see the Done checkmark, the card read is complete and the transaction is being processed.

Tap to Pay on iPhone requires a supported payment app and the latest version of iOS. Update to the latest version by going to Settings > General > Software Update. Tap Download and Install. Some contactless cards may not be accepted by your payment app. Transaction limits may apply. The Contactless Symbol is a trademark owned by and used with permission of EMVCo, LLC. Tap to Pay on iPhone is not available in all markets. For Tap to Pay on iPhone countries and regions, see https://developer.apple.com/tap-to-pay/regions/.

Apple Pay is a service provided by Apple Payments Services LLC, a subsidiary of Apple Inc. Neither Apple Inc. nor Apple Payments Services LLC is a bank. Any card used in Apple Pay is offered by the card issuer.

*Encrypted card numbers are temporarily stored on iPhone only for transactions made in Store and Forward mode.
